

TOP REASONS TO GIVE TO THE ANNUAL FUND

1. *It's for Our Students!*

Any donation received as part of the Annual Fund is an investment supporting the best educational program for our students and providing resources to the School it would not otherwise have. The Annual Fund enables the School to not compromise due to a lack of resources and gives our students the ability to learn and grow in an optimal, intimate and nurturing environment. Additionally, annual giving plays a huge part in financial aid at the School, meaning donations help other LILA families i.e. your children's friends.

2. *It helps raise the School's profile for universities and career opportunities*

Since Annual Fund dollars impact all aspects of the School, it also plays a part in helping LILA's reputation at large. We work hard so that our students and alumni stand out during the university and application process by remaining academically competitive. If the School thrives, having LILA on applications and resumes will be an asset they will have and leverage for years to come.

3. *It supports and raises up our community as a whole.*

Did you know that our staff and faculty like seeing high parent participation in the Annual Fund? They see it as one more way for parents to show their appreciation for their dedication to teaching. In fact, almost 90% of faculty and staff give to the Annual Fund every year. Also, all Annual Fund parent volunteers put a lot of time and effort into the campaign, so why not show your support for your fellow parents and give?

4. *International Schools Have Higher Operating Costs*

We are a private international school, which employs faculty from around the world. Recruiting and bringing top-notch teachers from France and other countries is costly. Factor in the expense of getting and maintaining visas for the teachers and the School spends more money on its teachers than most American private schools. This year alone, visa costs are budgeted to be \$135,000.

5. *We Receive NO Outside Assistance from Government Sources*

One of the biggest misunderstandings is that we are subsidized by the French government but, in fact, the School receives no funds towards its operating budget. Rather, the French government only provides very limited financial aid (bourse) to applicants who are French citizens. Just like any other American private school, fundraising is an integral part of our operating budget. Fundraising is a necessary means to support continuing improvements for all private schools. In fact, giving above and beyond the amount of tuition and registration fees is an accepted and necessary practice in most private schools.

6. *100% Participation Is Very Important*

100% participation ensures the School's solid financial future and inspires major donors from within our community as well as outside financial institutions with the confidence to invest in the School.
