

Pre- Theory of Knowledge (TOK)

10th Grade Intl. [1 period per week]

Mr. Faizal Emamaullee

Course Description

This course is an introduction to the two-year IB Theory of Knowledge course, which is taken in grades 11 and 12. In the Pre Theory of Knowledge course students will delve into such topics as the nature of knowledge, areas of knowledge, ways of knowing, inductive and deductive reasoning, and metacognition. Most importantly though, students will develop critical thinking skills and apply them to real life situations.

Timeline
